

interdisciplinary
transformation
university austria

OUR LOCATION

Interdisciplinary Transformation University
IT:U is situated in Linz (Upper Austria) With a population of around 200,000, and a strong industrial and artistic foundation, the city aims to be a place where academia, arts, and technology meet.

- Top economic region
- Key Industries - Industrial Backbone
- High Employment
- Key Industries
- Startup Hub

Master of Science (MSc)

Interdisciplinary Computing

Interdisciplinary Computing

- Interdisciplinary Computing is the **first master's program** at IT:U
- Its educational approach is deeply rooted in **project-based, personalized learning**
- Students study at the **intersection of computing and various disciplines**
- Students develop their knowledge and skills in a vibrant, **international environment**, whilst learning in **small groups**
- Gain experience for a **future job in industry or to pursue an academic career**

Facts & Figures

- **Admission Requirements:**
Bachelor's degree
(180 ECTS) or equivalent
- **Degree:** MSc
- **Semesters:** 4
- **ECTS:** 120

- **Language:** English
- **Location:** Linz, Austria
- **Type:** Full time
- **Costs:** No tuition fees*

** Mandatory Austrian Student Union (ÖH) Fee: €26.20/sem / tuition fee after 4+2 tolerance sem: €600/sem*

Specializations

- 1. Designing Interactions**
- 2. Digital Earth, Society, and Networks**
- 3. Digital Humanities, Health, and Life Sciences**
- 4. Future Industries**

1. Designing Interactions

- Students learn how to understand, conceptualize and model human behavior as well as **design interactions with computing systems**
- These socio-technical systems include emerging technologies such as **AI, XR or robotics**
- Wide range of **qualitative and quantitative methods**
- In a **design studio**, students then learn how to translate contextual understanding and create and evaluate computational artifacts

Ethnographic Methods for
Understanding Humans

Evaluating Interactive
Technology

Design Theory & Methods

Modeling Human Behavior

2. Digital Earth, Society, and Networks

- Students learn how to **use and develop computing methods** to address societal and global challenges
- Work with **quantitative and qualitative data**
- These are **contextualized through spatial and temporal references** to understand the real-world dynamics of societal processes
- Students understand **how digital media and social networks shape our society**

Spatial Data Science

Semantic Analysis

Introduction to Network Science

Multimodal Information Extraction

3. Digital Humanities, Health, and Life Sciences

- Students explore how **cutting-edge computational methods** can drive innovation
- They will gain the skills to analyze human behavior, cognitive processes and decision-making
- Focus on **ethical AI** and real-world impact

Natural Language
Processing

XAI & Ethics

4. Future Industries

- Students learn how to apply **cutting edge computing** to a wide range of future industry contexts
- **Collaborations** with company network

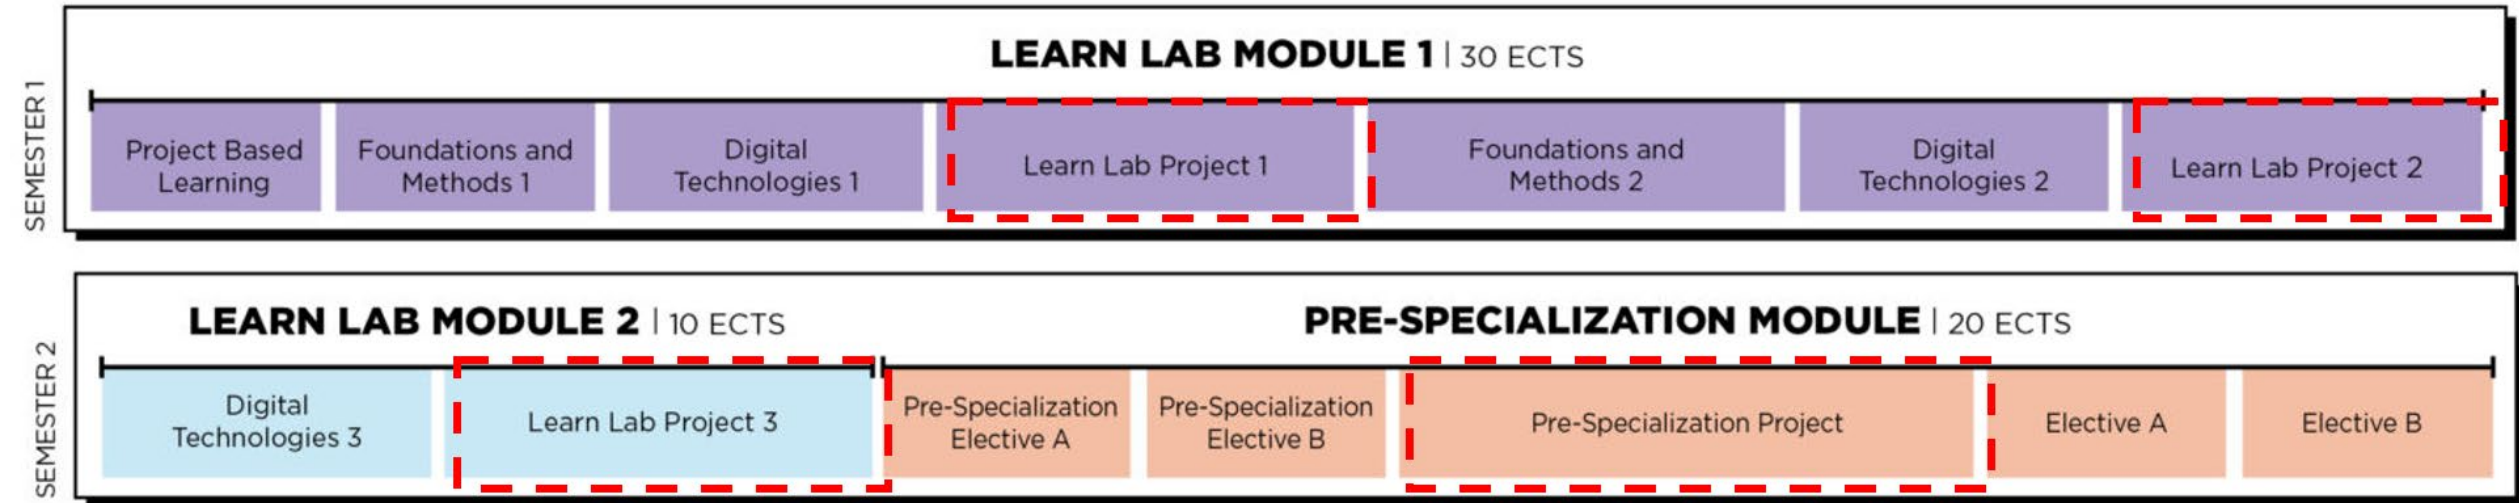

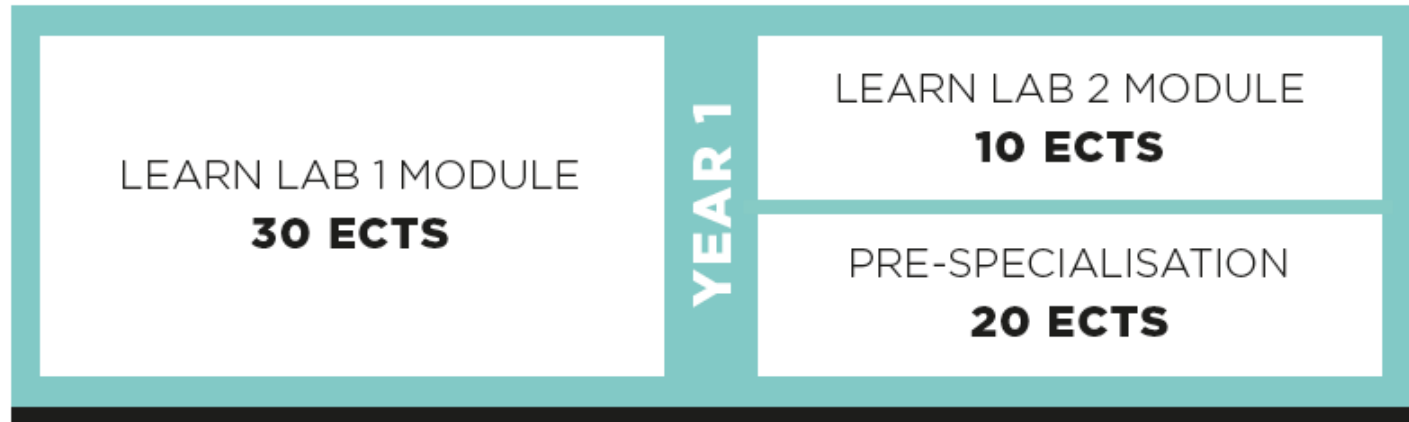

Advanced
Engineering

Software Company

FACC AG

Aircraft Systems

KEBA Group AG

Automation Company

voestalpine AG

Steel Fabricator

Sparkasse OÖ

Bank

Application Deadlines – Non-EU

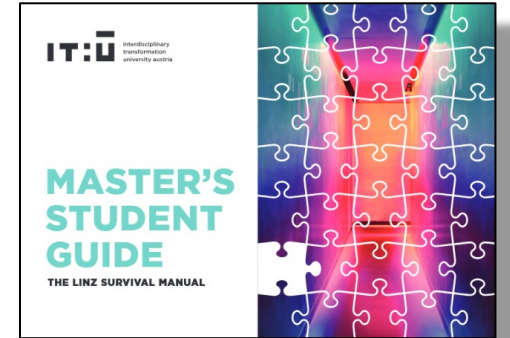

- Summer Intake – March 2027
 - Priority deadline – June 30, 2026
 - Final deadline – July 31, 2026
- Winter Intake – October 2027
 - Priority deadline – November 30, 2026
 - Final deadline – December 31, 2026

Student Support

- Student Guide – [Link](#)
- Housing Options
- Insurance Options
- Life in Linz
- Transport
- Residency Permit Process
- Social Activities
- **!!! Mandatory Pre-Departure Info Session**

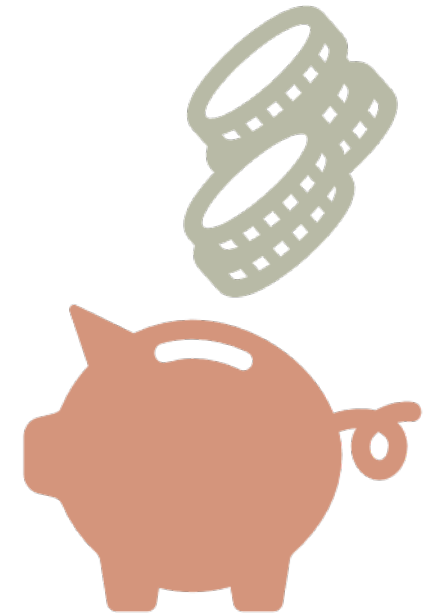

Entry and Residency Regulations – Important Links

- Students first apply for the Residency Permit – Checklist [HERE](#)
 - The visa appointments will take place at the Austrian Embassy
 - Finances will be explained on the next slide
 - Police Clearance Certificate must be obtained from the passport office
- Once students receive a positive response from the Delhi Embassy they have to apply for Visa D – Checklist [HERE](#)

Living Costs

- Based on estimates provided by Study in Austria, you should expect your monthly expenses to be ...
 - 450-800 euros for accommodation
 - 350 euros for food
 - 400 euros for miscellaneous
 - Total: 1.200 - 1.500 euros / month
