**MSC INTERDISCIPLINARY COMPUTING**

**DIGITAL**

**EARTH, SOCIETY,**

**& NETWORKS**

— ABOUT THIS SPECIALIZATION

# Technology for society and planet.

Study how digital geospatial technologies help us understand the world across space and time, applying computing to societal and global challenges.

---

MSC INTERDISCIPLINARY COMPUTING

# Multiple labs. One *specialization*.

In this specialization, you will work across several LearnLabs, with the strongest links to these two.

LEARNLAB 01

## DORO

Data Science

LEARNLAB 02

## INES

Human-Computer  
Interaction

# Hands-on with technologies

From geospatial data to intelligent systems.

**Digital Geospatial**

**Network & Sensor**

**Big Data**

Network Analysis

NLP

LLMs

Socio-demographic Statistics

User-generated Data

Spatial and Temporal Analysis

and many more!

— CAREER PROSPECTS

# From **data** to real-world insight

Not limited to one role, but the ability to understand how societies, cities, and environments evolve through data and technology.

**Potential roles include:**

- 
- **Geospatial Data Analyst**
  - **Smart City Consultant**
  - **Researcher in Digital Society**
  - **Computational Scientist**
  - **and many more**
- 

**INDUSTRY**

**ACADEMIA**

**ENTREPRENEURSHIP**

MSC INTERDISCIPLINARY COMPUTING

— INTERDISCIPLINARY TRANSFORMATION UNIVERSITY AUSTRIA

**MSc**  
**Interdisciplinary**  
**Computing**

**APPLY**  
**NOW.**

**DEADLINE:**  
**JUNE 30, 2026**

**SCHOLARSHIPS**  
**OFFERED**

**JOIN ONE OF EUROPE'S FIRST FULLY INTERDISCIPLINARY UNIVERSITIES**
